### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: applicants claim Glycinenitrile-based inhibitors of dipeptidyl peptidase IV, and to a method for treating diabetes and related diseases. WO 2005/025554 A2 discloses structurally similar dipeptidyl peptidase IV inhibitor compounds, which neither anticipates nor renders obvious the instant compounds because the said reference is not a competent reference based on the publication date.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
